ELECTRONICS CORPORATION OF TAMIL NADU LIMITED – ANGADI DIVISION

Tender ID: E-ANGADI-ST-SDC-2026-0034

Tender for Empanelment of Managed Service Providers (MSP) to provide Cloud services from MeitY empaneled CSPs

Pre-bid Queries – Response - II

9th Floor, Sigapi Aachi Building, 18/3 Rukmani Lakshmipathi Road,
Egmore, Chennai – 600008|GST No.33AAACE1670K4ZR
www.elcot.tn.gov.in | cloud@elcotangadi.in

Pre-bid Response-II

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
1.	II. TENDER DATA SHEET Pg.10 S.no.11	Due Date and Time of submission of Tender 19.08.2026, 03.00 PM at the URL mentioned in S. No (7) above.	kindly request a two-week extension to the current bid submission deadline of 19th August, 2026. The additional time will enable us to prepare and submit a comprehensive and competitive proposal that fully aligns with your requirements.	Tender condition, as amended by latest corrigendum/clarified by latest pre-bid reply, stands good.
2.	IV. GENERAL CONDITIONS OF TENDER 18. Earnest Money Deposit (EMD) Pg. 23	a) EMD amount as specified in the Tender Schedule shall be during bid submission by online payment through e-Tender Portal **or** through electronic Bank Guarantee (e-BG) through e-Tender Portal (https://tntenders.gov.in) only.	we request you to kindly share/confirm the EMD e-BG format, validity requirements, claim period, beneficiary details, and any specific instructions to be followed by the issuing bank for submission through the e-Tender Portal. We request you to kindly provide the	Bidder may use any standard format similar to Annexure-2 Bank Guarantee Format of Tender document.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			same at the earliest to enable us to arrange the EMD e-BG within the bid submission timeline.	
3.	V. Tender Specific Conditions 2. Bidder Eligibility Criteria Pg. 44 - 45	Additional Clause	We request to kindly include the below clause; "In case of corporate restructuring involving Business Transfer, all the Qualifying Criteria / Technical Scoring Criteria (or any other criteria pertaining to bidder's credentials) can be met by the bidding entity itself, or by the bidding entity's parent company (if the bidding entity is 100% owned subsidiary of the parent company) or by fellow subsidiary company (which is 100% owned by the parent company).	Tender condition, as amended by latest corrigendum/clarified by latest pre-bid reply, stands good.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			Supporting documents of the parent company's / fellow subsidiary company's credentials shall also be acceptable for all the Eligibility Criteria/Technical Scoring and any other criteria requiring bidder's credentials to qualify."	
4.	3. Technical Specifications 3.1 General Pg. 47	b) The servers where applications will be hosted shall only be in CSP Data Center location empaneled by MeitY. The data hosted by Departments of Government of Tamil Nadu should never cross the Indian shores. Both DR and DC sites should lie within	Please clarify whether the DR site must be at least 300 km from the primary DC in all cases, or whether being in different seismic zones is independently sufficient where the locations are less than 300 km apart.	Being in different seismic zones is independently sufficient where the locations are less than 300 km apart.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
		India in different seismic zones or at the minimum distance of 300 kms.		
5.	3. Technical Specifications 3.1 General Pg. 47	c) In case of change of cloud service provider, migration back to Tamil Nadu State Data Center, burst to a different cloud service provider for a short duration or availing backup or DR services from a different service provider CSP shall provide inter-operability support, data portability etc.	Please clarify the expected scope, data volume, duration and tooling assumptions for interoperability/data portability support when moving workloads to another CSP or TNSDC.	Based on individual department requirement and migration plan.
6.	3. Technical Specifications 3.1 General	d) It should be possible to scale the solution horizontally at any time by adding more VMs of the same	Please clarify whether horizontal scaling is required for every workload by default or only where technically supported and	Based on individual department requirement.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 47	configuration without prior notification to the CSP or their authorized partner, it should be possible to automate this process of scaling up and down automatically.	requested in the individual work order.	
7.	3. Technical Specifications 3.1 General Pg. 47 3.3 Disaster Recovery Services Pg.50	The DR site should be in a different seismic zone or at least 300 km from the primary DC. The bidder shall provide DR infrastructure, connectivity and replication as required.	Please clarify whether DR is mandatory for every Government Department/work order or will be provisioned only when specifically requested in the individual work order.	Based on individual department requirement.
8.	3. Technical Specifications 3.1 General	e) **Timeline and Penalty for provisioning:** The bidder must initiate the services within 24 hours of placing	Please clarify whether the 24-hour/72-hour timeline applies to all services, including DR, managed database, security services,	Based on individual department requirement.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 48	the work order and provision the resources within 72 hours from issuance of work order. A penalty of 0.25% of first month invoice shall be applicable for delay of provision of resources for delay in each day.	migration and dedicated connectivity, or only standard cloud resource provisioning.	
9.	3. Technical Specifications 3.1 General Pg. 48	A penalty of 0.25% of first month invoice shall be applicable for delay of provision of resources for delay in each day.	Please clarify whether the provisioning delay penalty applies only to the delayed resource/service value or to the entire first-month invoice of the work order.	Based on individual department requirement.
10.	3. Technical Specifications 3.1 General	k) Monitoring tools shall not capture or send Government data to any other establishment over Cloud.	Please clarify whether this restriction applies to telemetry/metrics/log metadata only or also to security logs,	Kind refers response to queries-I.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 48		monitoring data, alerts and operational metadata used by the bidder's NOC/SOC tools.	
11.	3.2 Scale-up and scale-down of resources Pg. 49	The Government Department may increase or decrease the resources allocated to them at any time during the contract period.	Please clarify the expected turnaround time for scale-up/scale-down requests and whether changes will be handled through standard service requests/work orders.	Based on individual department requirement. Will be decided during the requirement phase.
12.	3. Technical Specifications 3.3 Disaster Recovery Services Pg. 50	The bidder shall provide DR infrastructure, connectivity and replication as required.	Please clarify whether the RPO/RTO for DR will be specified separately in each work order based on application criticality, or whether a common mandatory RPO/RTO applies across all workloads.	Based on individual department requirement.
13.	3.3 Disaster Recovery Services	DR charges include replication VM, storage,	Kindly clarify whether the inter-DC replication bandwidth	Shall be in bidders scope. Same can be

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 50	connectivity, replication agent cost, etc.	between DC and DR shall be procured separately by the Department or shall be included in the bidder's commercial quote.	catered while providing cost estimate to Department.
14.	3.3 Disaster Recovery Services Pg. 50	Is DR capable of seamless failover and automatic scale-up during production outages?	Is DR capable of seamless/manual failover and automatic scale-up during production outages?	This will be decided during the individual department's requirement phase.
15.	3. Technical Specifications 3.4 Migration Services Pg. 51	Migration services are to be provided as required by Government Departments.	Please clarify whether migration charges cover only VM/server migration or also application discovery, dependency mapping, database migration, testing, UAT, cutover, rollback and post-migration stabilization.	Kindly refer Section 3.4 of Tender document.
16.	3. Technical Specifications	Migration services are to be provided as required by Government Departments.	Please clarify whether the migration volume, number of VMs, total data size, operating systems, databases	All the line items would be captured during individual

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	3.4 Migration Services Pg. 51		and migration waves will be specified in each work order.	department's requirement phase and work order would be issued accordingly.
17.	3. Technical Specifications 3.5 Cloud Managed Services Pg. 52	Cloud Managed Services include patch/configuration management, IAM/MFA, security administration, monitoring, backup management if procured, training, audit support, operational advisory and reporting.	Please clarify whether all listed managed service activities are mandatory for every workload or whether the Government Department can select individual managed services in the work order.	Based on end individual department's requirement.
18.	3. Technical Specifications 3.5 Cloud Managed Services Pg. 52	Implement Identity and Access Management (IAM), least privilege and multi-factor authentication (MFA).	Please clarify whether the bidder is expected to provide the IAM platform/license as part of managed services or whether the Government Department will	This would be decided during individual department requirement gathering stage and work order

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			provide the identity platform/licensing.	would be issued accordingly.
19.	3. Technical Specifications 3.5 Cloud Managed Services Pg. 53	v. Backup (if procured by the Government Department): Configure, schedule, monitor and manage backups of all the data including but not limited to files, images and databases as per the policy finalized by Government Department.	Please clarify whether backup storage, backup software/licensing, retention, backup frequency and restore operations are to be priced separately under Backup as a Service.	Bidders are requested to quote as per BoQ. Additional details can be provided in financial bid.pdf
20.	3.5 Cloud Managed Services f). v Pg. 53	Backup (if procured by the Government Department): Configure, schedule, monitor and manage backups of all the data including but not limited to	Kindly specify the backup frequency (Daily/Weekly/Monthly) and backup retention period to be considered for commercial estimation.	Vary depends on individual department application. It will be decided while getting specific requirement

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
		files, images and databases as per the policy finalized by Government Department. Restore from the backup where required.		from Department.
21.	3. Technical Specifications 3.5 Cloud Managed Services Pg. 54	ix. Provide the regular reporting to the Government Department: Security assessment report with respect to security configuration gaps and possible improvements to the security and compliance of cloud services on a quarterly basis.	Please clarify whether the bidder is required to perform the security assessment/VAPT as part of Cloud Managed Services or whether the assessment will be procured separately under the VAPT service category.	This would be decided during individual Department's requirement gathering phase and work order would be issued accordingly.
22.	3.7 Provisioning of Cloud resources	100 GB of Hard Disk Drive (HDD) storage,	Please clarify whether the 100 GB storage inclusion is per VM instance and whether	Bidders are requested to quote as per BoQ.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	3.7.1 Compute Mandatory requirement of Virtual Machine - 2 Storage Pg. 59	OR 100 GB of Solid-State Drive (SSD) storage. Additional storage may be procured separately.	additional storage can be procured separately at the Part C storage rates.	Additional details can be provided in financial bid.pdf
23.	3.7 Provisioning of Cloud resources 3.7.2 Storage Pg. 61	Storage requirements refer to HDD/SSD and Part C includes Block Storage, File Storage NAS and Object Storage.	Please clarify whether separate prices are required for HDD and SSD where both are technically supported, or whether a single storage price per listed Part C category is sufficient.	Bidders are requested to quote as per BoQ. Additional details can be provided in financial bid.pdf
24.	3.7.3 Managed Database as a Service Pg. 61–62	Each DBaaS offering shall have a minimum storage inclusion of 50 GB HDD or 50 GB SSD.	Please clarify whether the 50 GB storage is included in the DBaaS price for each database instance and whether additional	Bidders are requested to quote as per BoQ. Before issuance of work order for

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			database storage will be procured/charged separately under the Storage as a Service rates.	specific requirement of Department, this would be discussed.
25.	3.7.3 Managed Database as a Service Pg. 61-62	Does Database as a Service include backup, patching, monitoring, failover and security management?	Does Database as a Service can be setup in HA and business continuity strategies as dedicated infrastructure include backup, patching, monitoring, failover and security management?	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf
26.	3.7.3 Managed Database as a Service Pg. 61–62	Automated failover, backup & recovery, isolation & security, scaling, automated patching, advanced monitoring and routine maintenance are responsibilities of the CSP.	Please clarify the expected HA/failover architecture and whether automated failover is mandatory for every DBaaS instance or only for databases where HA is specified by the Government Department/work order.	These would vary for each requirement. Before issuance of work order for specific requirement, this would be discussed.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
27.	3.7.3 Managed Database as a Service Pg. 61–62	Backup & recovery are responsibilities of the CSP.	Please clarify the required database backup frequency, retention period, backup storage location, number of backup copies and restore requirements for DBaaS.	Each CSP has their own norms. MSP/CSP is requested to quote as per BoQ and if there are clarifications that requires to be provided, same can be submitted through financial bid. pdf.
28.	3.7.3 Managed Database as a Service Pg. 61–62	CSP is responsible for scaling and automated patching. CSPs shall provide a transparent view of database activities managed by them.	Please clarify whether database scaling is expected to be vertical, horizontal, or both, and whether scaling must be performed automatically or based on a Government Department request.	Each CSP has their own norms. MSP/CSP is requested to quote as per BoQ and if there are clarifications that requires

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			Please clarify the expected level of database activity visibility, including whether database-level metrics, audit logs, query performance, connection statistics, slow-query logs and administrative activity logs are required.	to be provided, same can be submitted through financial bid. pdf.
29.	3.7.3 Managed Database as a Service Pg. 61–62	DBaaS is required for MySQL, PostgreSQL, Redis and MongoDB/equivalent configurations listed in Part C.	Please clarify whether the database versions will be specified by the Government Department in each work order or whether ELCOT intends to mandate specific supported versions.	This would be discussed during the requirement gathering and before issuance of Work order for specific requirement.
30.	3.7.3 Managed Database as a Service	Part C lists MySQL, PostgreSQL, Redis and MongoDB with predefined vCPU/RAM	Please clarify whether the quoted DBaaS price per Count is inclusive of the database	Each CSP has their own norms. MSP/CSP is requested to

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 61–62 Annexure – 9 Price Bid PART-C (Itemized discount %) Pg. 100–101	configurations and unit as Count.	software/license, 50 GB storage, HA/failover, backup & recovery, monitoring, patching, security hardening and routine maintenance specified under Clause 3.7.3(a).	quote as per BoQ and if there are clarifications that requires to be provided, same can be submitted through financial bid. pdf.
31.	3.7.3 Managed Database as a Service Pg. 61-62	b) CSPs may also offer database licenses to Government Organizations which they can use in that particular CSP's Cloud environment. These are unmanaged databases. All these databases would have enterprise support included.	Please clarify whether the database-license offering under Clause 3.7.3(b) is optional and separately procured, or whether it forms part of the mandatory DBaaS requirement.	Each CSP has their own norms. MSP/CSP is requested to quote as per BoQ and if there are clarifications that requires to be provided, same can be submitted through

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
				financial bid. pdf.
32.	3.7.3 Managed Database as a Service Pg. 61-62 a,b	The RFP differentiates between managed DBaaS and separately offered database licenses/unmanaged databases.	Please clarify the responsibility matrix between CSP and Government Department for database license procurement, license compliance, subscription renewal, technical support and version upgrades under BYOL and CSP-provided licensing models.	Department rely CSP for any licenses. However, BYOL would be based on Department requirement and would be taken up on case-to-case basis.
33.	3.7.4 Network Service Pg. 62	Internet Connectivity	Kindly specify the expected monthly Internet egress volume (GB/TB) to be considered while quoting Egress charges.	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
34.	3.7.5 Security Pg. 62	CSP must provide native services for security b) Detection Control such as AI Powered Threat Detection Service, Unified Security and Compliance Dashboard, Vulnerability Assessment, Record and Evaluate Configuration, Track API and User Activity,	Can CSP partner with OEM for Detection Control such as AI Powered Threat Detection Service, Unified Security and Compliance Dashboard, Vulnerability Assessment, Record and Evaluate Configuration, Track API and User Activity,	Under CSP scope and as per MeitY service empanelment.
35.	3.7.4 Network Service Pg. 62 & 3.7.7 Monitoring Pg. 64	The tender includes Network, Security, Support and Monitoring service categories and corresponding Part C service items.	Please clarify whether firewall, WAF, DDoS, SIEM, EDR, monitoring, support and other security/network services are mandatory for every workload or are ordered only when required by the	As per individual department arrangements. This would be discussed before issuance of work order.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			Government Department.	
36.	3.7.5 Security Pg. 63	DDoS Protection	Kindly specify the required DDoS mitigation capacity (Mbps/Gbps) to be considered while quoting.	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf
37.	3.7.5 Security Pg. 63	Vulnerability Assessment & Penetration Testing	Kindly specify the required VAPT frequency (Monthly/Quarterly/Half-Yearly/Yearly).	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf
38.	3.7.5 Security Pg. 63	CSP must provide native services for security c) Infrastructure Protection such as	Can CSP partner with OEM for Infrastructure Protection such as Network Firewall with IPS capability,	Under CSP scope and as per MeitY service empanelment.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
		Network Firewall with IPS capability, Web Application Firewall, DDoS protection, Central Management of Firewall Rules, Data Protection such as Sensitive Data Discovery and Protection, Encryption Key storage and Key Management (FIPS compliant),	Web Application Firewall, DDoS protection, Central Management of Firewall Rules, Data Protection such as Sensitive Data Discovery and Protection, Encryption Key storage and Key Management (FIPS compliant),	
39.	3.7.5 Security Pg. 64	CSP must provide native services for security d) FIPS Compliant Fully managed scalable Hardware Security Module: Centralize Provision, manage, and deploy public and private SSL/TLS certificates, Central	Can CSP partner with OEM for FIPS Compliant Fully managed scalable Hardware Security Module: Centralize Provision, manage, and deploy public and private SSL/TLS certificates, Central Store to Encrypt,	Under CSP scope and as per MeitY service empanelment.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
		Store to Encrypt, Rotate, manage and retrieve secrets HSM - Should support FIPS 140-2 Level 3 for the storage of encryption keys ssl certificates etc. as managed service, should provide managed backup service for HSM Cluster to provide ability of restoration of keys in case of any failure of HSM device	Rotate, manage and retrieve secrets HSM - Should support FIPS 140-2 Level 3 for the storage of encryption keys ssl certificates etc. as managed service, should provide managed backup service for HSM Cluster to provide ability of restoration of keys in case of any failure of HSM device	
40.	3.7.7 Monitoring Pg. 64	Monitoring Services	Kindly specify the log ingestion unit to be considered for pricing (50 GB/100 GB/500 GB/1000 GB).	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
				financial bid.pdf
41.	3.7.5 Security Pg. 65	CSP must provide native services for security e) Incidence response: Potential Security Threat Investigating Control, Fast and Automated Control for Disaster Recovery and Ransomware Recovery.	Can CSP partner with OEM for Incidence response: Potential Security Threat Investigating Control, Fast and Automated Control for Disaster Recovery and Ransomware Recovery.	Under CSP scope and as per MeitY service empanelment.
42.	8. Exit Management Pg. 69	The bidder shall provide exit management and transition support, including data portability, at no extra cost as required by the Government Department.	Please clarify the scope and maximum data/VM/application volume covered under no-cost exit management, and whether third-party tools, network connectivity, physical media and additional manpower required for migration are included.	As per CSP norms. This would be discussed based on the individual Department requirement, before issuance of work order.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
43.	Annexure - 1 Model Form of Contract - 1, 2 Pg. 71	12 months contract and extension	"We are currently empaneled vendor representing Microsoft, and we understand that the empanelment has been extended for an additional year. Under the new RFP, quotations submitted by other empaneled partners may differ from our existing pricing. Additionally, our pricing for the current year may also vary unless we quote the rates same as the previous year. In such a scenario, which empaneled partner's quotation and pricing would ELCOT or the respective	Existing MSPs of ELCOT are encouraged to participate in this tender. Decision of comparing the previous tender rates with current tender rates would be taken up with successful bidder; based on the bids received.

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
			departments consider for procurement during the current year?"	
44.	Annexure - 5 Letter of Undertaking F. General Compliance with Tender Conditions Pg. 83	d) The Year of Manufacture of all products supplied under this Tender shall be 2025 or later, and no refurbished or reconditioned components shall be supplied.	We submit that our empanelment with MeitY has been from 2023. From technology point of view, the hardware stack's normal life would be 5 years. And we would upgrade / replace as requirements to meet the industry standard and empanelment requirements, in fact higher than these two requirements. Hence, we request you to drop this mandatory compliance condition and issue a necessary clarification.	Tender clause stands deleted.
45.	Annexure - 7 Technical Compliance	Can CSP provide service URLs, pricing URLs, native service	Can CSP provide documents or offline service URLs, pricing	Yes. Same can be provided as

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
	Pg. 86-87	names, and compliance confirmation for Compute, Storage, DB, Network, Security, Monitoring, DR, Migration and Managed Services?	URLs, native service names, and compliance confirmation for Compute, Storage, DB, Network, Security, Monitoring, DR, Migration and Managed Services?	financial bid.pdf.
46.	Annexure – 9 Price Bid Pg. 91	Compute Virtual Machine	Kindly clarify whether Compute VM pricing shall include Windows Server/RHEL OS subscription charges or whether these shall be considered under BYOL.	Customer usually doesn't bring their license. It shall be under bidder purview.
47.	Annexure – 9 Price Bid Pg. 91	DNS Service	Kindly clarify whether DNS service shall be quoted on a per-domain basis or per hosted zone/IP basis.	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf

S. No	Title of clause	Existing clause	Query/Amendment requested	Response
48.	Annexure – 9 Price Bid Pg. 91	Block Storage	Kindly clarify whether the unit rate of Block Storage shall be quoted per GB or whether the minimum billable quantity shall be considered as 100 GB.	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf
49.	Annexure – 9 Price Bid Pg. 91	File Storage / Object Storage	Kindly clarify whether the quoted unit cost for File Storage and Object Storage shall be considered per GB per month or per allocated storage volume.	As per CSP norms. CSP can mention the metric based on which rates are quoted as part of financial bid.pdf
50.	Annexure – 9 Price Bid Pg. 91	VPN Gateway / NAT Gateway / API Gateway	Kindly clarify whether commercial pricing shall include only gateway provisioning charges or both provisioning and data processing charges.	As per CSP norms. CSP can mention the metric based on which rates are quoted as
